LIFT STATION LEVEL TRANSMITTER

- 3-Inch diameter sensing diaphragm resists clogging
- Protective baffle plate reduces risk of sensor damage
- Corrosion resistant, all SST construction
- Submersible to 1,100 ft (35m) WC
- Ranges from 0-10 thru 0-1,100 ft WC
- Surge protection from lightning strikes and voltage spikes

Model 311-M351*
Birdcage®
Submersible Pump
Lift Station

Model BCP3000*
Surge Protector for
Model 311-M351 Birdcage®

- 17 mm DIN rail mount chassis (BCP3006)
- Replaceable surge module (BCP3005)
- On-board failure lights (green to red)
- For 4-20mA or 0-5Vdc systems
- High current gas discharge tubes (GDT)
- Fast response Surge-Arresting Diodes (SAD)

***Life-time Warranty against lightning failure.**

**NOTE: Life-time Warranty is against lightning damage as defined by a factory technical analysis of the sensor and surge protector. Warranty requires BCP3000 to be installed with transmitter. Consult factory for full warranty terms.*
